# Creating Mobile-first Offline Maps using Authoritative Trails Data

Rob Chohan, San Diego

CTO, ePi Rational, Inc

More info & animated slides at RobLabs.com/mobile1st

Mobile First Maps by *e*π Maps

- Mobile First — Maps are natively offline

- Using local assets for Raster and Vector map tiles

- Since map tiles are local, there is no server
  - No privacy issues
  - No analytics nor tracking ensures full privacy
